

Custom Product Fabrication

DELSTAR

ENERGIE

Delstar Energie is a onestop shop for rotor & component fabrication projects.

We offer a wide range of services, from prototype to volume production. Delstar Energie's value resides in the extensive knowhow of its teams and the cutting-edge equipment they can rely on.

We manufacture according to your specifications and provide technical recommendations to improve design and performance, reduce costs and optimize repeatability.

Delstar Energie is your trusted partner for all your custom bus bar projects!

Copper Alloys

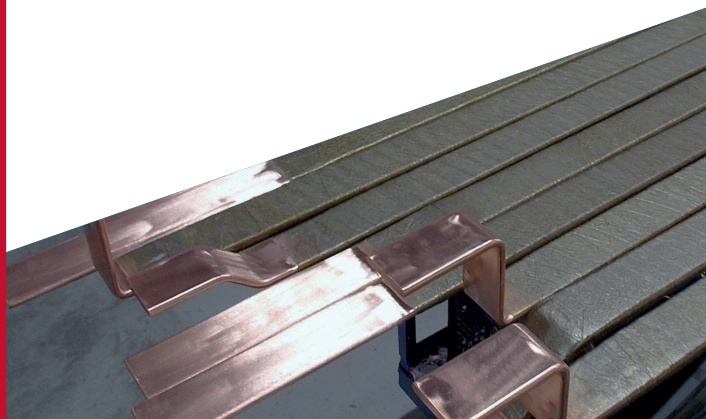

- C11000 ETP
- C10100 - C10200 OFCH
- As per ASTM B187/B152

Seamless Copper Tubes

- C11000 ETP - C12200 DHP
- As per ASTM B188/B75/B88

Aluminum Alloys

- 6061 Structural grade
- 6101 Electrical grade
- 7075 Aircraft grade

Everything under one roof

- Forming and brazing
- Offset and side bending
- CNC and conventional machining
- Electroplating
- Multi-axe taping robot
- Automated induction brazing
- Fully automated & monitored curing oven
- Electrical testing
- Engineering

TIN-PLATED
BUS BARS
TERMINALS
SUPPORT RINGS

FLEXIBLE CONNECTORS
SILVER-PLATED
CONNECTION BARS
CONNECTORS
STATOR BARS

Insulation Systems

- Pre-impregnated mica tape
- Heat-shrinkable sleeves
- Resin-rich tape
- Fluidized powder-coating epoxy
